STUMP.—Benjamin Franklin Stump, son of brother Benjamin and Sister Stump was born in Noble County, Indiana, Aug. 28, 1881, died July 11, 1900, at Gravelton, Ind., aged 18 years, 10 months and 13 days. This is another death to record of the 4th of July. Franklin Stump left his home on the morning of the 4th and in company with another young man they started to Syracuse Lake to celebrate. They had with them a revolver and some blank cartridges. Before they had arrived at the lake Frank met with an accident that cost him his life. His thumb slipped from the hammer of the revolver and the contents of the cartridge struck his left leg just above the knee making but a very small flesh wound but slight as the wound was it produced lock jaw which caused death seven days after the accident. He realized his condition and that soon he would be in eternity unprepared and with his awful suffering in body he would cry out, "Oh, I am lost, I am lost. O how can I die and be lost." His father who is a minister of the River Brethren denomination prayed to God to spare his son until he could find peace with God. Christian people prayed for him and he would cry piteously to God to forgive him. A few hours before he died he experienced Jesus precious to his soul and would say, "It is all well now. I am now ready to go, I am ready to die." After bidding dear ones good bye Jesus called him home from his suffering. Franklin Stump was a young man of good habits and will be greatly missed by the young people in the community in which he resided. He leaves a heart-broken father and mother, two brothers and five sisters to mourn over the death of a dear one. Those in attendance at the funeral were estimated at twelve hundred people. Funeral conducted by the writer and Brother Shirks of the River Brethren denomination.

He was ever bright, happy and anxious to please. He was a faithful and inspiring scholar and he will be greatly missed from his school and the church services.

RESOLVED, That we sympathize with his parents and his brothers and sisters and while neither they nor we may call him back, yet his good life should be an inspiration for us to try to "go to him."

WHAT SHALL WE DO WITH OUR STOMACHS?

IS A QUESTION OF VITAL IMPORTANCE.

The best informed physicians advise the use of Adamur Dyspepsia Lozenges, which are not a patent medicine but a favorite prescription that we found from years of experience in prescribing for stomach troubles to be wonderfully reliable. We find in treating great numbers of cases of chronic diseases that this combination is indicated in at least four out of five cases and is the foundation of the most successful treatment that has ever been devised. We can do no better for persons who cannot come to the Sanitarium than to recommend a thorough trial of this prescription which is put up under the name of Adamur Dyspepsia Lozenges simply to designate or identify the prescription.

If you have ill-health, look to your stomach for the cause. Do not stop half way. Do not suppose it's the heart, or the liver, or kidneys, or constipation, or piles, or the nerves. It is a deranged digestive function that causes the heart to palpitate, that causes liver troubles, that wears out the kidneys, that causes piles and constipation, and distracts the nerves. When our stomachs are restored to their original or natural condition, we are well.

Nine out of every ten cases of chronic disease originate in a deranged digestion. No matter whether it be rheumatism, kidney disease, constipation, nervous troubles, scrofula, or any other form, they all begin with some form of indigestion. The formation of gas in the bowels is an indication of indigestion, but is generally unheeded until a more serious form of the trouble occurs, and so with many other symptoms.

Some of the most intelligent and successful physicians in the state of Michigan use and prescribe Adamur Dyspepsia Lozenges. We have thousands like the following to substantiate our statements:

ADAMUR SANITARIUM CO.,

Gentlemen: I am glad to say that Adamur Dyspepsia Lozenges have helped me more than any medicine I have ever taken. I have doctored with different doctors for about three years and could get only slight relief for a short time. Have only taken three boxes of Adamur Dyspepsia Lozenges and feel perfectly well. I can eat anything I want without feeling any distress from it whatever.
